

# Will your preschooler succeed in kindergarten?

CHILDREN'S HOSPITAL OF PITTSBURGH OF UPMC's school readiness programs help children ages 3–5 develop the academic and interpersonal skills they need to nurture concentration, self discipline and independence.

In partnership with the community building strengths of our family support programs, Family Care Connection, this link between the classroom, the home and the community will provide a powerful learning experience for your child.

Our Learning Centers at Hilltop, Lawrenceville and Turtle Creek provide:

- A comprehensive curriculum based on the Montessori philosophy
- Life skills and pre-academic, free choice, physical/expressive activities
- A welcoming, calm and friendly environment

Our Montessori Learning Center at Braddock provides:

- An educational experience based on the model developed by Maria Montessori
- Classroom lessons presented with specially designed Montessori materials
- The opportunity for children to move, choose and explore the classroom materials

The learning centers are open year round from 7:30 a.m.–6 p.m. Call the center in your neighborhood today to arrange for a tour and to meet the teachers.

**Montessori Learning Center at Braddock**
